FULLSTACK DEVELOPER

PROFILE

Fullstack developer graduate from UpgradeHub Academy, with hands-on experience in web and app projects as a freelancer. Passionate about technology, I excel in collaboration and adaptability. Proficient in HTML, Node.js, MongoDB, Sass, PHP, JavaScript, React, and Angular. Continuously seeking new challenges and opportunities to expand my skill set, I thrive in dynamic environments where innovation and learning are paramount.

PROFESIONAL EXPERIENCE

🚀 Freelancer (2023-2024)

- Specialized in PHP, React, SQL, and JavaScript for building and optimizing high-performance websites.
- Developed complex systems like reservation management and data-heavy platforms.
- Expertise in REST API development and automated testing with Cypress.
- Focused on delivering scalable, efficient, and user-friendly solutions.

Up_Code App (2023-2024)

- Built Up Code, a developer tool using React, Node.js, MongoDB, and Vite.
